

A close-up photograph of a woman with blonde hair and blue eyes, looking directly at the camera. She is wearing a white, textured knit sweater that covers her nose and mouth, leaving only her eyes visible.

fun fact

Did you know, on an average day you take about

17,280 breaths?

This wouldn't be an issue if we didn't spend 90% of our time indoors exposed to air conditioning.

Put it in another way, there are over 17,280 opportunities a day to breathe in airborne harmful bacterium, virus, germs, or other micro-organisms that can cause disease.

Service your air conditioner today.

- Lower your electricity bill by 30%
- Breathe fresh air
- Increase the life span of your air conditioner unit
- Remove stale mouldy smells
- Minimise the risk of asthma & other cardiovascular diseases caused by polluted air
